

IN THE SPECIFICATION:

Page 13, revise the third full paragraph to read:

Although a first corrosion-resistant layer ~~12a~~ is formed by the chemical conversion treatment only on a surface on the side of the heat-sealable layer 14 of the aluminum layer 12 in the laminated structure ~~shown in Fig. 4(a)~~, another corrosion-resistant layer ~~12b~~ may be formed additionally by the chemical conversion treatment on the other surface on the side of the base layer 11 of the aluminum layer 12 ~~as shown in Fig. 4(b)~~.
